

Meteorologische Zeitschrift (originally founded in 1866) is the joint periodical of the meteorological societies of Austria, Germany and Switzerland. It accepts high-quality peer-reviewed manuscripts on all aspects of observational, theoretical and computational research out of the entire field of meteorology, including climatology. **Meteorologische Zeitschrift** represents a natural forum for the meteorological community of Central Europe and worldwide.

Update marked list

Articles

- [OA Of entropy production by radiative processes in a conceptual climate model](#)
 pp. 439-457(19)
Author: *Pelkowski, Joachim*
- [Van Bebbler's cyclone tracks at 700 hPa in the Eastern Alps for 1961–2002 and their comparison to Circulation Type Classifications](#)
 pp. 459-473(15)
Authors: *Hofstätter, Michael; Chimani, Barbara*
- [Classification of daily precipitation patterns on the basis of radar-derived precipitation rates for Saxony, Germany](#)
 pp. 475-486(12)
Authors: *Kronenberg, Rico; Franke, Johannes; Bernhofer, Christian*
- [Evaluation of Humidity, Clouds and Precipitation in COSMO-CLM and MM5 over Germany](#)
 pp. 487-502(16)
Authors: *Hermans, Anja; Ament, Felix; Geyer, Beate; Matthias, Volker; Quante, Markus; Rockel, Burkhardt*
- [The February 2012 exceptional snowfall along the Adriatic side of Central Italy](#)
 pp. 503-508(6)
Authors: *Bisci, Carlo; Fazzini, Massimiliano; Beltrando, Gérard; Cardillo, Antonio; Romeo, Vincenzo*
- [OA Validation of two SVAT models for different periods during the West African monsoon](#)
 pp. 509-524(16)
Authors: *Kohler, Martin; Schädler, Gerd; Gantner, Leonhard; Kalthoff, Norbert; Königer, Franz; Kottmeier, Christoph*
- #### Short Article

 [Urban summer heat load: meteorological data as a proxy for metropolitan biodiversity](#)
 pp. 525-528(4)
Authors: *Kappes, Heike; Katzschner, Lutz; Nowak, Carsten*
